Colouring In
Competition

Dear Parents
This week we've been busy learning new facts about farm animals. Each student had to find out 6 interesting facts about a chosen farm animal and turn these into a published report. This coincides with the new activities the students have been playing at recess and lunch with new farm animals and equipment purchased for play. The students have each been allotted two square metres of land to fence, manage and stock with animals. The students have enjoyed these simulated farm games and surprisingly each student has a

different farm with very unique breeds of stock. On Tuesday, our year six students will attend an Orientation day at Mudjee High school where they will spend a full day in classes. Parents are invited to attend the Mudjee High school 'parent information evening' next Thursday on the 21st of November. Parents will be given a school tour at 6pm and then assemble at the performance centre at 7pm for an information session. Presentation day this year will be held on the 14th of December in the Royal Hall. The day's events will involve a presentation of awards in

the hall and then a return to school for a celebration lunch. All parents and community members are invited to attend and will be sent invitations shortly. Congratulations to Harrison for student of the week. Harrison is always mindful of the rules and helps out his classmates. Well done, Harrison. Let the rains fall and the tanks fill – it looks like it might be a dry summer and we need to make the most of this lovely rain while it lasts.

Michelle Gallop

*Thought for
the Week*

"A kind word
is like a
Spring day."

ORIENTATION DAY MHS

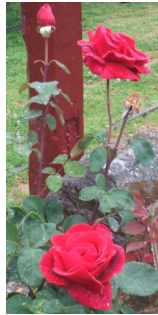

As previously stated Year 6 students will travel by bus to MHS on Tuesday 20th November. Full primary school uniform must be worn and students must bring recess, lunch, drink, pencil case and notebook. The canteen will also be available to them.

GARDEN UPDATE

Our garden is continuing to grow and our 2 new fruit trees are looking great.. It was nice to get rain today to settle them in even better. We have been successful in obtaining a grant of \$550.00 from the Western NSW Local Health District which will be used to buy some more fruit trees, fencing etc. for our orchard. We have picked all our radishes and another lot of peas this week! Yum!

and the roses look beautiful too!

growth
eat

During play time we have been building farms at school. I built a cattle grid with some sticks. My property is called 'Jocks Flat'. The animals on my farm are a dog, a cow and a ram. I have John Deere tractor. **Allen YK**

Rams

Rams are male sheep.

Rams help
the farmers
to make baby
lambs.

Rams are really good to eat.

Rams live for 7 years.

Allen Drakeford

Goats

Goats make milk and the farmer uses the milk to make cheese.

Goats are all farmed by special farmers.

A goat less than one is named a kid.

Goats can live in mountains and dry places where other animals like sheep and cows can't live.

Goats are covered with hair that can be black and grey and brown or red.

Grace Browne

During playtime we have been building our own farms. On my farm I have cows, sheep and rams. I have a milking cow and her name is Bessie and I have a cattle grid so my cow doesn't go on the road and we have to share the toys with all other student's. I have fun making my farm, especially playing with my best cow named Bessie. My property is called 'Bessie' **Grace Y1**

This week Mrs Gallop got us new trucks and livestock. On my farm I have a truck, a pig and a dinosaur, their names are Bill and Ben. William and I have made a fence line and I have built the gate so William and I can drive through each other's land. Allen and I have made a little

farm research animals project

Pigs

There are about 2 billion pigs in the world. Wild pigs are called boars, people hunt them.

Some people keep pigs as pets. Pigs have small lungs.

Pigs are smart animals, people use them for sniffing out truffles.

People farm pigs to eat, you can get pork, bacon and ham from a pig.

Pigs can pass on diseases. Pigs have a snout for sniffing out objects.

**Harrison

ramp so we can drive up and down and I built a gate so our animals don't get mixed up. All the kids like to play with all the toys.

Harrison Y3

ART CAMP

Hill End Public School
