

Hill End Public School

152 Years

Term 4 Week 10

15th December 2022

The Golden Quill

It's a Wrap

So after another year of fun, friends, learning and laughter we bring the school year to a close. It's been quite an extraordinary journey, shifting out of COVID19 lockdowns, regular Rapid Antigen Testing, masks and vaccine mandates. Through to a return to regular school activities.

Our community has seen changes and celebrations, while our world seems to have some 'speed wobbles'.

Through all of this disruption we have remained focussed on providing a quality learning environment where every student can reach towards his or her highest potential.

Through our topic studies this year we've examined the science of physics, the weather and climate, our living world, and the amazing science of chemistry. We've built a new STEMShed dedicated to providing a space for students to learn practical hands-on skills, and we've kept English and Maths as our foundation for all learning.

My sincerest thanks to every staff member at the school for the effort and care you have given this year. To our newest members of staff Mrs Robertson and Barry our GA – thank you for becoming part of our school community.

We would all like to thank parents and family members for your ongoing support of our school, and we wish all families, parents and children a happy holiday break.

From everyone at Hill End Public School – Merry Christmas

READY SET WRITE *MY MARVELOUS MEDICINE*

I had an idea. It was to give Grandma a potion. She started getting smaller, then she grew bigger up to the clouds. Then she shrank and landed on a cloud. **Allison K**

"Depth is more important than speed"

RUDOLPH COOKIES

I had an idea to give something to Archer. First I mixed a rotten egg in my potion. Archer drank it and turned into an eagle. He started to fly, then landed on me. Then he got too small and sat on my shoulder forever but he slept on a perch at night. **Imogen K**

I had an idea. I mashed it up, it was fun. The next day my neighbour Mc Gregor gulped it up. He got zapped. Every day he got zapped and drank a lot of the potion. He turned into a mummy. I sent him to Egypt to live in the pyramid for the rest of his life. **Archer Y1**

I had an idea about a time at the pub when a yukky dog came into the pub. I used to have a pet dog. I wish the mean dog was friendly. The dog started to shrink and shrink. It was frightened then the dog became my pet forever. **Ethan Y1**

I had an idea that I was going to make a potion for my duck. I mixed my potion by myself while the duck watched me. The duck turned into a person and ran around. The duck stayed as a person forever. **Telisha Y1**

I had an idea. I was going to make a medicine for a pigeon that was coming to my house. I put in a leaf, then lipstick, flea powder then dog biscuits. Then the pigeon turned into a parrot. The parrot got ready to fly off so I said "Bye parrot". He flew to the jungle and found a friend. The parrot lived happily ever after. **Ellyse Y1**

I had an idea. I would make some medicine for my pet Queen.

I ran to the bathroom and grabbed some flea powder then I ran outside and got a worm and some rotten egg and some lava. I mixed them together. Queen ate it and she grew really fast, she was enormous. I chased her but she ran to Sydney. **Eddie Y3**

I had an idea to make some medicine. I put in dynamite and lava then I mixed it. I fed it to Mr D. He turned into a bulldog and broke the fence, wood flew everywhere. He ran into the house, so I released my pet snake. He ran back to his house and found a place to sleep! The next day he turned into a pigeon and flew onto a boat. **Hudson Y2**

I had an idea. I was going to make a medicine to fix my grumpy uncle. First I mixed a worm, a rotten egg and some flea powder and four sheep nails. Then I looked for the grumpy Uncle of mine. "Where is he?" I said. There he was. I gave my Uncle a little bit of my marvellous medicine. Puff, in a cloud of smoke my grumpy Uncle turned into T Rex. The next day when he woke up his legs fell off. **Hunter Y3**

BATHURST EXCURSION

Students and staff headed off on Wednesday for a wonderful excursion to Bathurst to visit the Bathurst Aquatic Centre and have a delicious lunch at Panthers. Everyone had a really enjoyable day! (Due to arriving a little late, we forgo the Dinosaur Museum, will definitely do in 2023)

Beth English Graduation

It is with our warmest thoughts that everyone at HEPS congratulates Beth English on her Year 6 Graduation. Beth has grown from a Little Digger into a mature, intelligent student with wonderful creative abilities. All of the staff agree it has been an absolute pleasure to help teach Beth, that she will be missed by her classmates and that we wish her all the very best for her future. Congratulations Beth!
