

# The Golden Quill

## The Big Pop!

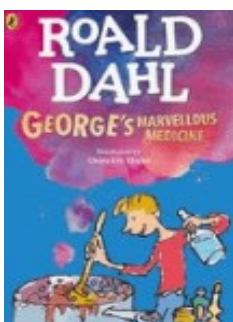

Our chemistry studies took an exciting turn this week with an experiment to create a 'big pop!' using Bi-Carb soda and vinegar. Testing different mixtures our experiments certainly created some excitement with our junior scientists. We then enjoyed sharing our experiment results with the students from Glen Alice Public School.

### STEM Shed Creativity

We've been back in the STEM Shed this week with the students finishing their second project for the term. The students have been learning to scribe using squares, drill with hand drills and use screwdrivers to create something special as a gift.

### George's Marvellous Medicine

Our self-named 'Minions' study group of Beth, Hudson, Hunter and Eddy are having a great time this term studying Roald Dahl's - George's Marvellous Medicine. Learning to learn together with others is an important step forward for our students.

*We had a visitor to school yesterday. This beautiful, big echidna was spotted near the staffroom steps!*

# READY SET WRITE - MY WEEKEND

On the weekend we got some toys. They are good fun. Playdoh was more fun.

We had a great weekend. **Archer Y1**

On the weekend we went to a concert. It was cool. After we went to a park. Toby and I played in the

## "Questions are really important"

### MATHS TOPIC

In Maths this week we have been continuing our studies on volume. Students have been making different shapes using cubes then working out the volume.

Next week students will be completing a popcorn challenge where they are required to make a container using paper that will hold three hundred pieces of popcorn.

2

playground. We had hot chips for dinner. Then we went home.

The next day I watched a movie and then I cleaned up. **Eddie Y3**

We bought lots of playdoh on the weekend. We made some stuff with the playdoh. It was fun! **Ethan Y1**

On Saturday we went tailing lambs at Nan and Pa's.

It was fun! My job was catching the lambs. **Hudson Y2**

On the weekend we got to play outside. We played with bubbles and hide and seek tips. It was fun! **Telisha Y1**

On the weekend I saw a snake. It was a red

bellied black snake and it was on the road. **Allison K**

We saw Joanna on the weekend and we saw a dead bat on the power lines.

We also went to a concert. We ate chocolate cake and biscuits. Then we went home. **Imogen K**

On the weekend I saw a snake in the hay shed. It was a red belly black snake. Pop tried to get the snake but it slithered away into the hay. Pop saw the snake again but only it's head was out. He said he will leave it because the red belly will get rid of the brown snakes. **Hunter Y3**

On Saturday we went to Mudgee. I got sick on the way there. When we got there we stopped in a park and there was a Farmers market on. We met up with our friends. We looked around the farmers market. After that we all played in the playground with our friends.

At the playground we saw a dead bat on the power lines. It was so hot.

Next we went to Big W to look at some toys, The other family came too.

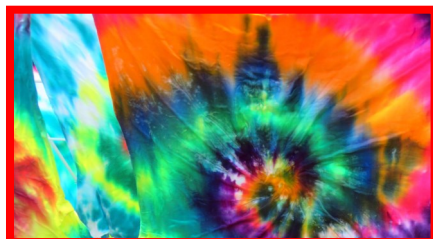

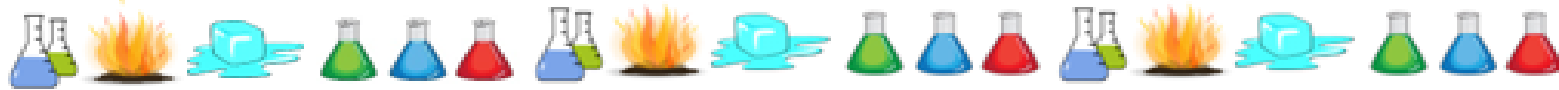

I wanted to get some Wings of Fire books. Then we went to a concert.

The concert was in a church. Emma got to ring the bell. The friends left

and we got hot chips for dinner. We saw bats flying in the sky, it was night time so we went home. On Sunday I was sick. We ate chips and went outside to cuddle the chickens. I didn't do much on Sunday.

The weekend was fun, except for Sunday. **Beth Y6**

# COLORS!

## Term Topic Material World

As part of our studies in our chemical world we have created some tie dyeing. Every student was given a shirt and a pair of socks to colour. Students had to select a pattern to put on their shirts.

Students picked between a bullseye or a spiral pattern. They then selected the colours for their shirts. We used the dye on the socks as well, students picked some colours and spotted the dye on to the socks. Everyone was happy with their choice of colours and we achieved some great results.

## BATHURST LIBRARY VAN

We enjoyed our last day for this year with Alissia and Mel from Bathurst Library. They read us a funny story, 'The Naughtiest Reindeer' and gave us some lovely gifts. We always look forward to their visits! Thank you to Bathurst Regional Council and the Bathurst Library for this great service.

## JELLY!

We made jelly to turn a liquid into a solid and a solid into a liquid using hot water and then cooling it in the fridge to make a solid again. The students enjoyed the taste testing at the end of the experiment.

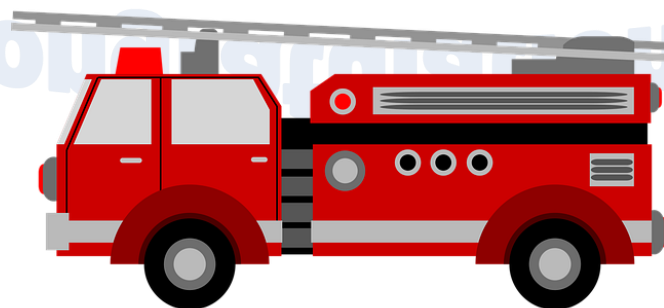

## HEALTH CLINIC NEWS

The Hill End Health Clinic is currently only open on Wednesdays 1.00pm—3.00pm. For any enquiries during this time please call Bathurst Health Service Ambulatory Care 6330 5211.

## HILL END HAPPENINGS

On Sunday the Hill End RFS Brigade will be celebrating the special Life Memberships of four Brigade members. Friends, family and residents are all invited to this event at 4pm, at the Brigade Station, to recognise and celebrate the service of these four special members.

# Congratulations!
